Dear Labyrinth Friends,

LNN's website is now almost 12 years old. We're thinking it might be time to update the website. The problem is that our LNN Planning Circle is not a high tech group. We need some people to help us plan a path forward. If you would be willing to serve on a committee to discuss possibilities for updating the website, please reply to this e-mail or write to [web-calendar@LabyrinthNetworkNorthwest.org](mailto:web-calendar@LabyrinthNetworkNorthwest.org)

In July there will be an opportunity to help with repairs on a labyrinth in Cedar Mill. If you're interested in learning more about labyrinth construction and repair, this is a great opportunity to learn. Everyone is welcome... no special skills required. See details below.

It was suggested that rather than always inviting people to attend our labyrinth events we try taking the labyrinth to places where there are a lot of people who might be interested in trying a labyrinth. So, we're going to attend the Celtic Fair in Hillsboro on August 24, and we need people to help at that event. It should be lots of fun. Please let me know if you could attend the festival and help tend the labyrinth which Melinda is going to create for us. For more info, reply to this e-mail.

I'm trying to learn more about social media, so I've started an account on Instagram where I am showing pictures of labyrinths I've visited recently. Please follow me! My Instagram name is kay kinneavy. One of the labyrinths

I've visited recently is on the [LNN Home Page](#). Check it out.

Members of the Labyrinth Network are invited to help with repairs on the labyrinth at Christ United Methodist Church. We're targeting the week of July 15 to do the work. We'll need 3-5 people to help with scraping sand off the bricks as they are removed. It's pretty easy work, yet critical for the success of the repairs.

The plan is to work in the evenings, starting at about 6:00 and working until 8:00 or 8:30. Repairs might take 2 or 3 evenings.

For more information, contact Terry 503-649-5247 or email at [terry.styner@gmail.com](mailto:terry.styner@gmail.com)
