Price: \$15 (cash, ck, cc at door)

Refreshments will be provided.

PLEASE JOIN US FOR A FABULOUS EVENING!!!

WHO WE ARE:

The Liminal Space Society is a diverse collection of creative people who include labyrinth builders, mandala creators, sound artists, actors, writers, and ritual leaders. Our mission is as follows: "Liminal Space Society people explore threshold experiences as catalysts for creative and fearless engagement of liminal space. We invite re-enchantment, and the reimagining of self and community."

OUR FIRST FEATURED PRESENTER is Denny Dyke. Denny is a labyrinth artist who creates walkable art on the beach. He will share his story (My Journey on the Sandy Path) with a visual slideshow presentation and discussion about creating with nature and understanding the metaphysical and liminal aspects of

the labyrinth. He will also talk about his upcoming August walking event on the Oregon coast. Here is a short video of

Denny and his work: <https://www.opb.org/television/programs/ofg/segment/sand-labyrinth/>.

In 2007 at Whiskey Run in Bandon, Denny created his first sand labyrinth and his work

has continued to grow. In 2011 he launched a special project called Circles in the Sand and began creating hand-drawn labyrinths on the beaches of Oregon's coast. He now holds regular public labyrinth drawing/walking events on the beaches which everyone can enjoy. <http://www.onepath.us>.
