

Science and the Solstice

You are invited to a unique event at the beautiful Cerimon House, in the heart of the Alberta Arts District
by Presented by Rev. Sandra Grace.

The Summer Solstice is celebrated the world round.

- Why did our ancestors stop to honor and observe the Solstice?
- What is the Solstice? What is the Science behind the observance?
- How did our ancestors 6,000-9,000 years ago know where to place the monolithic stones or draw the Medicine Wheel to orient to the Solstice?
- Why is it important now to understand and reconnect to these practices and observations?

Join us to explore many of the world's ancient celestial musings and observations of the stars, the moon, the sun in the cycles of life. We will come together to walk a labyrinth as a symbol of walking our path back to a connection with the Natural world and our place within it.

Place: Cerimon House, 5131 NE 23rd Ave. Portland www.cerimonhouse.org.

Date: Thursday, June 20, 2019
